Fume Filtration Units

- Wall mount internal fume filters made in England by Lincat
- No need for wall drilling: air is recirculated
- Powerful centrifugal fans pull cooking fumes through a double bank filtration system
- Choice of two models, 915mm or 1295mm wide
- Stainless steel construction
- Internal lights
- Easy access for cleaning and filter replacement through hinged top panel
- Ideal for back bar installations
- Not suitable for gas appliances
